

## **Aquatic Animal Health Inspection Request**

Results of an aquatic animal health survey are public information which will be reported on a Aquatic Animal Health Inspection Report Form (3-226) and will be provided to the Fishery agency in the State where your facility is located

### **A. Dear Applicant:**

Thank you for your inquiry requesting aquatic animal health assistance. Please verify the accuracy of the below listed information and correct any errors. This information is necessary to process your application.

<b>Applicant's Name:</b>	<b>Hatchery or Other Animal Source Name and Address:</b>		
<hr/>			
<b>Species On Hand (list by lot<sup>1</sup>)</b>	<b>Number</b>	<b>Age<sup>2</sup></b>	<b>Eggs (E) Or Animals (A) Obtained From:</b>

<sup>1</sup> – A lot is defined as a group of animals of the same species that, in the case of aquatic animals, share a common water supply and originate from a distinct breeding population.

<sup>2</sup> – For hatchery animals give age in months.

For feral animals use symbol: e = eggs, fry, or larvae; f = fingerling; b = older animals.

- B.** After assuring the above information is correct, please read the terms and conditions on the back of this form. If you want us to continue processing your application, please sign below and return a copy to us.

<b>Applicant's Signature:</b>	<b>Date:</b>

### **General Inspection Conditions**

- A. The applicant understands this inspection service can only be furnished within the limits of available personnel and facilities, and only when it is shown that the inspection cannot be accomplished by other than Service biologists.
- B. The applicant is aware that 1) Service concern extends beyond the immediate condition of his animals and the results of the inspection will be routinely reported to the applicant and the Service's Regional Office; 2) that under the Freedom of Information Act the results must be made available upon request; and 3) the applicant's entire facility and all animals must be made available for this inspection.
- C. The inspection is performed primarily to assist the applicant in complying with State and International requirements concerning the transfer of aquatic animals and eggs and understands that regardless of the reports or certificates issued, results of all laboratory tests will be given each time.
- D. The applicant understands that use of the inspection results for advertising purposes or to gain competitive advantage is prohibited and that interpretation of the results by various agencies or concerned individuals may vary as to meaning, extent, and time in effect.
- E. It is agreed that the Fish and Wildlife Service of the Department of the Interior is acting at the request of the other party (parties) to this agreement. In recognition and consideration thereof the said party (parties) agree to and shall indemnify, save and hold harmless, and defend the United States, its agents and employees from and against all fines, claims, damages, losses, judgments, and expenses arising out of or resulting from any act, omission, or activity in connection with the activities undertaken in furtherance of this agreement.
